

OPERA

THE OUTDOOR COLLECTION BY DINOZOLI

Opera is the Dino Zoli's outdoor fabric line designed and manufactured in Italy.

Now you can also have the elegance and high-performance of a fabric made in Italy at outdoor spaces.

The exclusive Italian fiber Olyna by Dino Zoli provides Opera with a soft touch, making it unique and innovative, gathering technology, strength and beauty in collections that go from classic to modern designs.

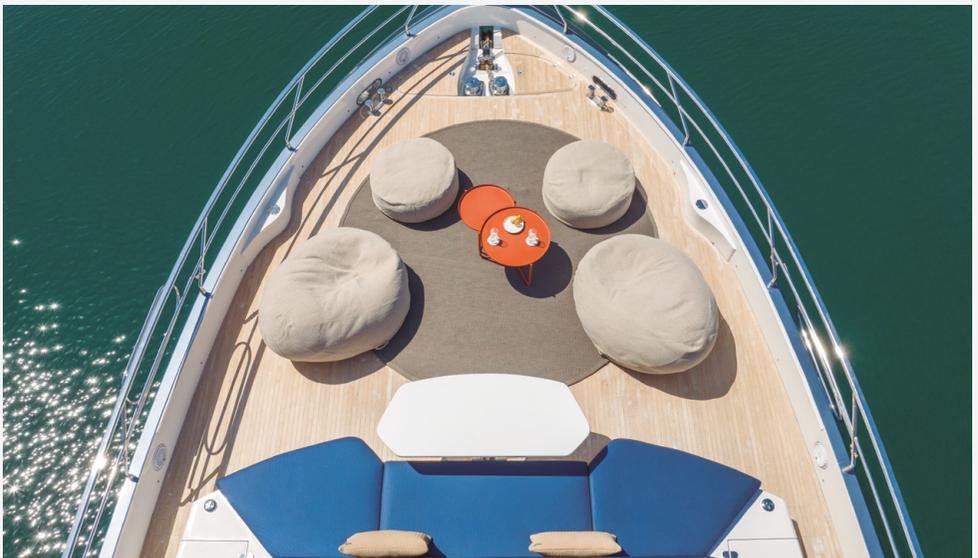

Opera is the art of making moments more beautiful and inspiring, while creating stories and enjoying every moment life has to offer. That's what Dino Zoli does every day, from Italy to the world.

BEAUTIFULLY STRONG.

Opera presents comprehensive collections with exclusive colors and textures like no other outdoor fabric has. Created to surprise your senses with its unique performance that raises beauty, comfort, and performance standards that only a Dino Zoli's Italian fabric can reach.

It allows a huge variety of compositions that add value to any project, no matter if it is for a house, a hotel, or a yacht, with collections that offer from classic to modern designs, with the durability and strength the outdoor environment requires. Live your life outdoors.

OPERA

THE OUTDOOR COLLECTION BY DINOZOLI

DESIGNED TO MAKE THE FABRIC LAST, AS WELL AS YOUR GOOD MOMENTS.

Opera presents comprehensive collections with exclusive colors and textures like no other outdoor fabric has. Created to surprise your senses with its unique performance that raises beauty, comfort, and performance standards that only a Dino Zoli's Italian fabric can reach. It allows a huge variety of compositions that add value to any project, no matter if it is for a house, a hotel, or a yacht, with collections that offer from classic to modern designs, with the durability and strength the outdoor environment requires. Live your life outdoors.

OLYNA

The exclusive
Polyolefin Italian fiber
by Dino Zoli.

Opera is made with Olyna, the exclusive Italian fiber by Dino Zoli, which offers several benefits such as its durability, soft touch, and resistance to fading, since the colors are added to the base of the raw material before it is transformed into yarn.

Tested against harmful substances, Olyna is completely non-toxic, safe - Oeko-Tex Standard 100 - Class 01 certified -, and suitable for contact with the skin of adults and children.

Lightweight and comfortable, it has the thermoregulation technology, in addition to being breathable and resistant to rain and UV rays. As it does not absorb water, Opera by Dino Zoli dries quickly outdoors and adds elegance to your outdoor space.

HOW TO CLEAN

Opera can be washed in washing machines. You just need to set it to one cycle in delicate mode, add little detergent with water at a temperature of up to 30°C (86°F). Let it dry naturally, do not use a dryer or iron.

Do not dry clean or use solvents to avoid damaging the fibers.

Stains can be removed with warm water (up to 30°C/86°F) and a detergent for delicate clothes. For more difficult stains, you can use half a cup of bleach dissolved in half a liter of water with a little neutral soap. Wait a few minutes, rub gently with a clean, soft cloth/sponge and rinse well.

Opera has warranty against premature fading and loss of strength of the fabric since normal conditions of use and all the maintenance and cleaning instructions were followed. The warranty applies only to the direct purchaser, indicated in the invoice, and does not cover installation defects, abuse, or misuse.

FEATURES

Outdoor Fabric Made in Italy

All the elegance, technology and high-performance that only the Italian fabrics can offer.

Soft touch

The specific lightness of the Olyna fiber provides a soft and nice touch, making it suitable for any situation.

Breathable

Air ventilates between the fibers, so Opera doesn't warm up when in contact with the skin.

Resistant to stains, humidity and more.

Don't worry, just enjoy it! Opera is 100% washable and resistant to mold, fungus, bacteria, chlorine, wine stains, food and sweat like no other synthetic or natural fabric is.

CARACTERÍSTICAS

100% non-toxic

Meets the demanding European and American standards and legislation. It can be sanitized with 70% alcohol, suitable for hospitals, as well as for residential, hotel and nautical sectors.

5-year warranty

Resistant to UV rays, does not fade. Beauty and high-performance that last.

100% solution-dyed polyolefin Olyna by Dino Zoli

Produced with Olyna, an exclusive Italian fiber by Dino Zoli, with yarn dyed in bulk and Oeko-Tex Standard 100 – Class 01 certified.

Unrivaled beauty and elegance.

Comprehensive and highly decorative collections, with colors for exclusive compositions. Created and designed by Dino Zoli's design studio in Italy for your project.
